## Our History

In May 2015, KWE completed the acquisition of Saudi Arabia-based Injaz Express, a subsidiary of Neptune Orient Lines. Injaz Express portfolio spans Saudi Arabia, providing high value-added services to US leaders in the automotive, retail, industrial and consumer industries. The strengths of Saudi Arabia translates to improved services for our customers, and today we move as a unified group to expand our business toward the future.

# ABOUT US

# LAST-MILE DELIVERY

## Last-Mile Delivery

Our hard work & consistency is not just limited to getting the parcel delivered, but also delivering the happiness & emotional value that come with it. Ohsest's proudly owns the largest delivery network across kingdom, and is recognized globally for its best-in-class worldwide parcel services. Ohsest's technological upfront has been designed to facilitate seamless delivery & return managements.

**OVERLAND TRANSPORTATION**

## Overland Transportation

---

When you have a trusted Road Freight partner who knows as much about your business goals as transportation issues in your region, you have Injaz Express Logistics brand of Personal Service, providing cargo services.

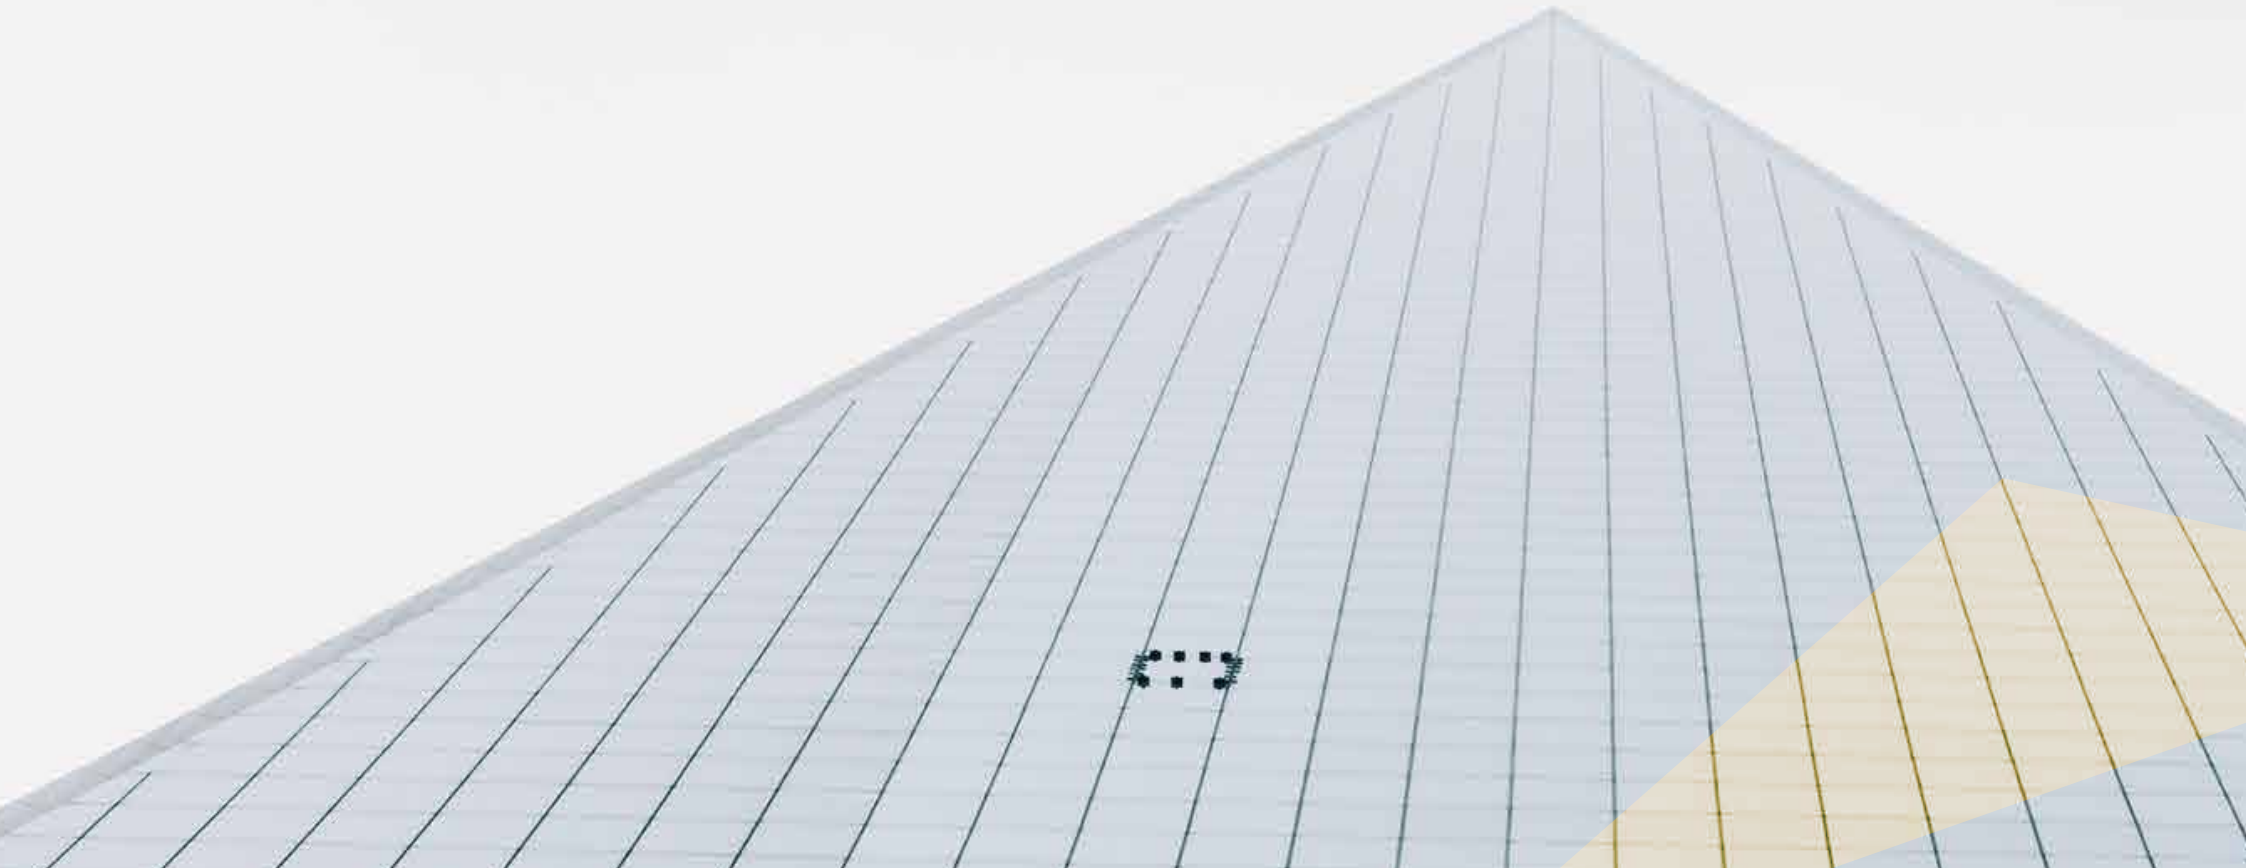

Through clear communication, thoughtful collaboration and dedicated follow-through, our Road Freight management teams seek to understand your objectives and create solutions that deliver.

We combine simple, standardized Road Freight products with a host of customizable options to achieve the ideal balance of lead-time, capacity, frequency and cost. Whether it means providing same day delivery or hauling hazardous cargo, Injaz Express Logistics' freight specialists know the key to a successful supply chain is a committed relationship with our customer.

# MULTI-VENDOR MANAGEMENT

---

## Multi-Vendor Management

---

Managing e-trail distribution with multi-vendors can be one of the biggest hurdles to a successful business. It requires all network partners to assist each other in managing all the important elements of the distribution network. To facilitate this smoothly, Ohsest's fulfillment centers and technological platforms are integrated with all the major network partners. We are Innovative Logistics.

# WAREHOUSING MANAGEMENT & DISTRIBUTION

## Warehousing management & distribution

---

Jenae Logistics' logistics experts combine warehousing and distribution, advanced systems and technology, as well as Value Added Services to customize your supply chain to meet your precise goals and requirements.

Our dedicated teams select and apply the exact resources you need to improve your business's performance and provide flexibility for a dynamic marketplace.

Our warehousing and distribution capabilities include full-service management. Backed by Road, Air, Sea and Sea/Air freight forwarding products, advanced technology and strategic facilities, our experts have the resources to put their plans into action. From consulting to overseeing delivery, Jenae Logistics does not rest until your products reach your customers' hands.

## Chilled Storage

---

Injaz Express trained and proficient warehouse teams are adaptable, efficient and reactive to your needs, offering multi temperature storage facilities and systems, ensuring quality and integrity are maintained throughout the chilled supply chain.

## Frozen Storage

---

QLS's facility has the ability to store a range of frozen products. Our dedicated QA team operate with strict compliance, which is rigorously maintained supporting frozen food storage, frozen food distribution and cold storage distribution for food and non-food products.

# CROSS BORDER MANAGEMENT / CUSTOM CLEARANCE

## Cross Border Management /Custom clearance

---

Our customs authorities help our clients to ensure their goods are dispatched when expected through established procedures and effective technology. Our Company manages the entire documentation procedures and can initiate the clearance process before goods are in the transit to expedite clearance of consignments by sea, air and land. Primarily we analyze and understand our client requirement.

We then treat our client's distinct needs by implementing special mechanism resulting in efficient, convenient and accurate clearing and forwarding services for shipments to the desired destinations. With our local expertise and knowledge your goods move through even the most complex of procedures efficiently.

# DOOR TO DOOR CARGO SERVICE

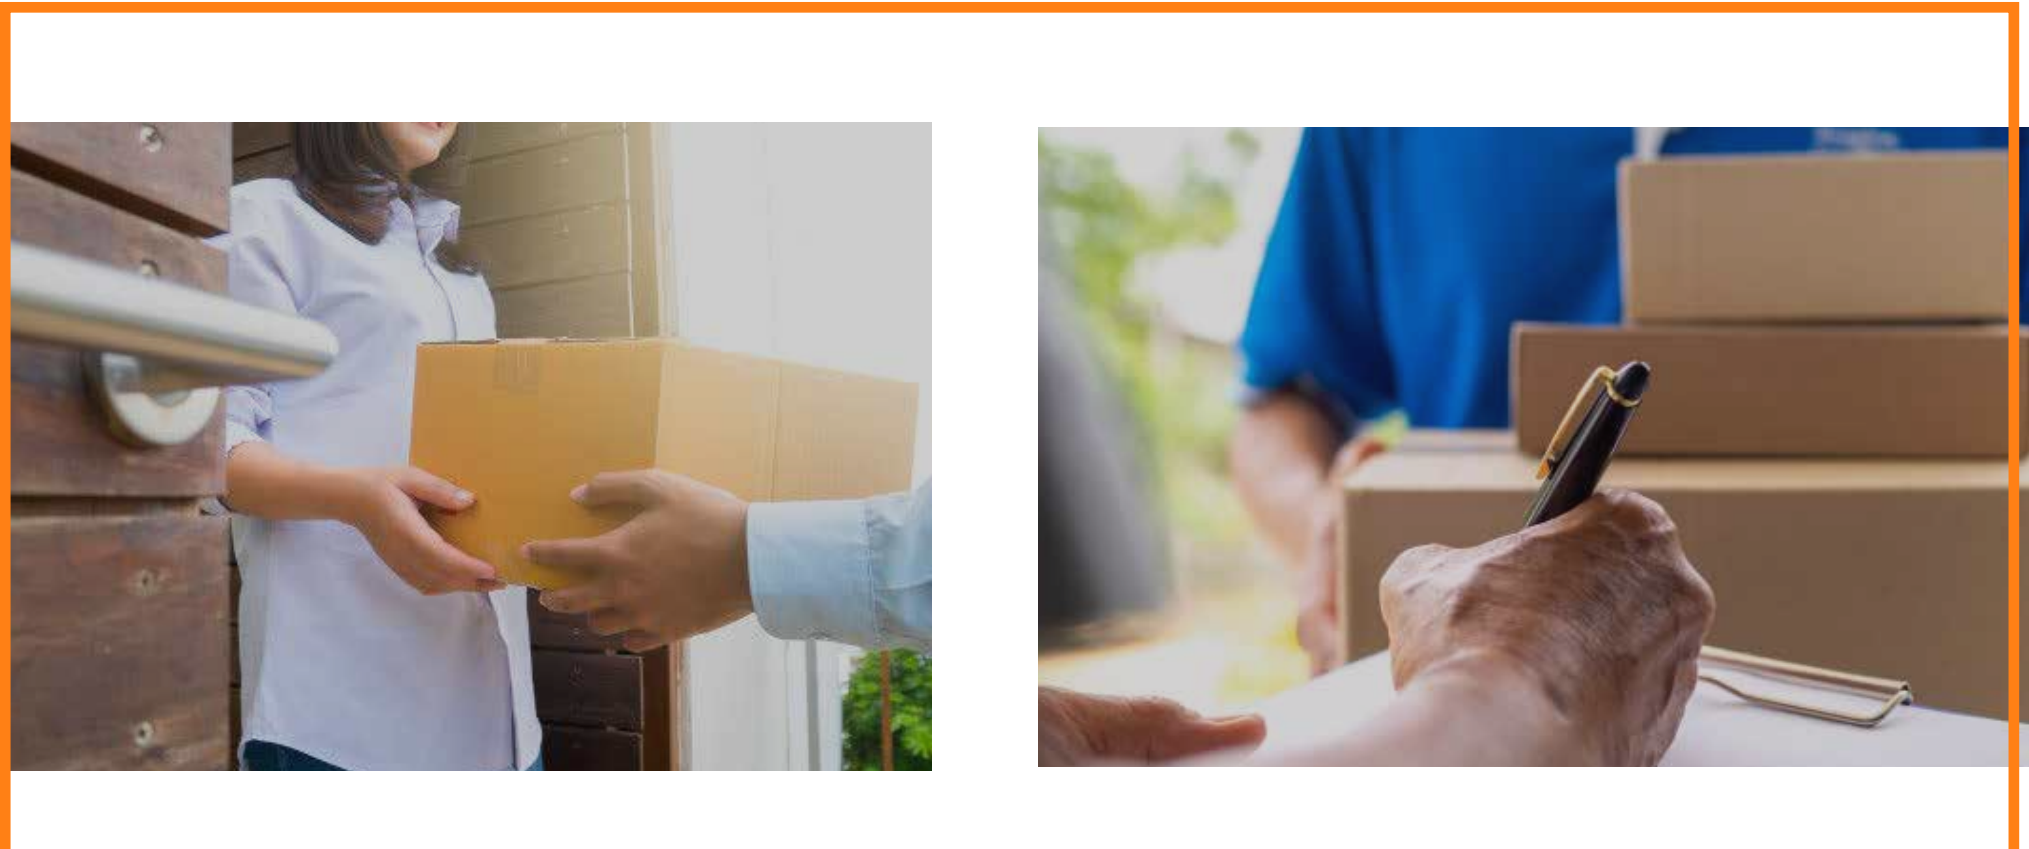

## Door To Door Cargo Service

---

Customers are demanding. They want more choices. More flexibility in ordering and delivery.

Supply chain, logistics and freight have been constantly facing dramatic challenges posed by transitions in economic structures, urbanization, city infrastructure and transport systems in Saudi Arabia. This has driven a great deal of research recently which led Ohsest to develop innovative cost-effective solutions to unlock value and achieve sustainability.

More information about their shipments. And they want it done faster and cheaper. And with more care for the environment, health & safety. With it fast, Safe and Reliable door to door delivery services through our own consolidation around the world & through contract vendors. Injaz Express captures the heart of the corporate community.

# SUPPLY CHAIN CONSULTING SERVICES

## Supply Chain Consulting services

In logistics management, simpler is usually better. Fewer, more automated steps cut time and costs out of your supply chain. But getting to “simple” takes work.

Our experienced logistics consultants work closely with your team to understand your process flows - either across the supply chain or within specific operations. Using the most sophisticated analysis tools available, including JDA's full suite of i2® planning and optimization tools, we have helped companies:

- Determine the optimal number, location and size of distribution centers
- Consolidate warehouses after mergers and acquisitions
- Perform "what if?" analyses based on different strategy options
- Identify optimal sourcing strategies
- Identify potential savings from cross-docking, pool distribution, and other transportation strategies

Our logistics consulting services support comprehensive supply chain solutions. Unlike pure logistics consultants, Global Logistics implements the supply chain solutions we recommend.

Maybe your business is booming and you're overwhelmed by growth – how do you need to adapt? Maybe you're trying to downsize and need to figure out where to make cuts – how do you simplify your processes smartly?

There's too much at stake for you to simply guess at how to proceed. Let us be your trusted 3PL partner so that you can move forward with confidence. We have the experience and the know-how to provide the guidance and information you need – in a way that's easy for you to understand and implement.

# AUTOMATED VEHICLE TRACKING SYSTEM

## Automated Vehicle Tracking System

---

### Application

The system is designed for road carriers, shippers, enterprises with own fleet and organizations who wants to enhance fleet supervision, improve service quality and vehicle safety. With InfraFleet customer can identify the nearest available vehicle(s), coordinate service calls, allocate resources to align on demand, and increase job loads. By vehicle locating in real time, InfraFleet helps to increase on-time performance and proactively address potential delays. There is also an opportunity to optimize timetable owing to vehicles movement analysis and the history of vehicle routes.

### **Customizable Solutions**

InfraFleet is configured in a way that the customer himself can define parameters to be controlled. Vehicle status data transfer in optimal time intervals or immediate 'on demand'. Expenses optimization of GPRS traffic is achieved by double adjustment of parameters for data transfer in home and visited network. GSM network choice in roaming is provided automatically as per predefined provider lists and their tariffs. InfraFleet provides data about vehicle position, speed, important events, route and speed compliance, and other data about history of vehicle routes with convenient showing on maps and tables. Customizable reports are easily exported for archival or post processing use.

## Increased Safety & Security

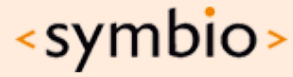

Link to embedded vehicle alarm system and optional 'panic' key improves safety level for both the workers and vehicles. Besides, InfraFleet system monitors drivers' performance and encourages accountability to a great extent. Managers can immediately identify off-route or unauthorized activity as well as excessive speed and take corrective action.
